OBJECTIVE

Seeking an opportunity in the development field where I can apply my knowledge, learn new technologies, and contribute to challenging projects.

SKILLS

Back-end Development:

* Knowledge in building REST APIs using Node.js and Express.

* Hands-on experience with NoSQL (MongoDB) and relational (PostgreSQL) databases.

Computer Vision:

* Responsible for developing object detection scripts for academic projects using Python and libraries such as OpenCV.

Front-end Development:

* Starting interface development with React, Next.js, and Tailwind CSS.

* Fundamental knowledge of HTML and CSS for web page structuring and styling.

Tools and Additional Skills:

* DevOps/Infrastructure: Knowledge of application containerization with Docker.

* Version Control: Proficiency in Git and GitHub for code versioning.

* Design: Interface prototyping and UI/UX design with Figma.

* General: Ease and proactivity in learning new technologies.

LANGUAGES

* Portuguese (BR): Native.

* English: Advanced.

EDUCATION

High School
